Inset

Out Area

Where international, state, and county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

1 A "°" following a place name indicates that the place is also a false MCC;

2 In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a "99" suffix. An anomaly appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.

¹ A "°" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

Sheet Location within Entity

The diagram shows a map of the United Kingdom. A rectangular box is drawn over the southern part of the map, specifically covering the area of England and Wales. A line points from the text 'Sheet Location within Entity' to this box. The box is divided into four quadrants, with the bottom-right quadrant shaded grey, indicating the location of Sheet 7.
